

## SCHOOL OF ART, DESIGN ⊕ MEDIA AT DUNSTABLE COLLEGE

# FOUNDATION DEGREE (FdA) CREATIVE AND EDITORIAL PHOTOGRAPHY

Photography, both analogue and digital, plays a major role in visual communications today. Whether it is for print-based, new media, specialised or particular market-orientated magazines or for internet-based applications, good photography has a currency world-wide as the prime means of communication. Photography also has a strong recognition as a creative medium with a significant role in fine art practice.

This course aims to engage students in contemporary photographic practice where there is an integration of approaches to image-making, ideas related to photography, photographic image processing and the visual world at large.

Through work-related studies, students will gain insights into professional and business practice in the field of either creative or editorial photography.

#### Progression

Students may progress to a relevant BA(Hons) Degree programme (one year) or into related employment.

#### Entry requirements

A National Diploma in Photography, a Diploma in Foundation Studies in Art and Design, an Access qualification, GNVQ Advanced in Art and Design, or

relevant A Levels. However, students with no formal qualifications but who have an appropriate background, interest or industrial experience will also be considered.

#### Applicants need:

- To be 18 years old or over
- To present a portfolio of work at a selection interview
- An aptitude and enthusiasm for photography.

#### Assessment

Students will be continually assessed through assignments.

#### Duration

Two years, full-time consisting of two 15-week semesters per year. This course is also offered as a part-time programme.

#### How to apply

Either direct to Dunstable College or via UCAS.
